

## Licence Agreement

### Overview

**DO NOT** share, distribute, request illegal copies of, download via the internet or hardware, steal from a licenced user or re-sell Colophon Foundry fonts. We ask that licencees of our fonts respect our EULA and the amount of work that has gone into producing the font software.

Some of our fonts are embedded with unique glyphs or codes which are assigned to a specific licenced name / user. We reserve the right to use this as proof of purchase.

By purchasing our software, the end-user (e.g. You) agrees to the following licence agreement, as drawn up by us (e.g. Colophon Foundry).

Anthony Sheret & Edd Harrington  
Directors, Colophon Foundry

## E.U.L.A

### End User Licence Agreement

The main points of our font licence are as follows:

#### Point 1

We believe our pricing strategy is accessible for all. Our fonts are individually priced relating to their designer, use and availability. We reserve the right to increase and decrease prices of font software as we see suitable. Some typefaces are limited in editions of 50 – 500. If not stated, the font will be distributed in an unlimited quantity. We also reserve the right to charge VAT on purchases.

#### Point 2

— Purchased fonts will remain copyright to Colophon Foundry and their creators.

#### Point 3

— If Colophon Foundry software is misplaced or stolen from a licenced user, we will happily replace the fonts to the licensee. The licensee must give the full registered name and email address which matches the previous transaction. We reserve the right to not re-supply font software we think is being used for illegal purposes.

#### Point 4

— Purchase of a font is for a single user. The purchase of a font makes the buyer a licenced user of the font, not an owner. The font may be loaded on to a maximum of 3 personal computers belonging to the same person or organization at a single location. Font licences are non-transferrable and are licenced to the original buyer unless previously agreed. Multi-user licences are available via the website, please ensure that you have the appropriate licence for the number of computers the font software is installed on.

#### Point 5

— Fonts are allowed to be passed onto a pre-press service or printer for output only. Contractors are not allowed to actively create new documents with fonts that have been passed on for output only. If any modification is to be made by a non-licencee then a new licence must be purchased for that user.

#### Point 6

— Unfortunately, we cannot offer returns or exchanges on our fonts due to their digital nature, unless the product is defective — in this case, we are happy to give technical assistance. Please contact us for support.
