

## **OPTION 1**

### **3D LETTERS**

- Could also use reclaimed materials that would incorporate a recycling story.
- Would attach to the wall by...
- Floor information would be between elevators.

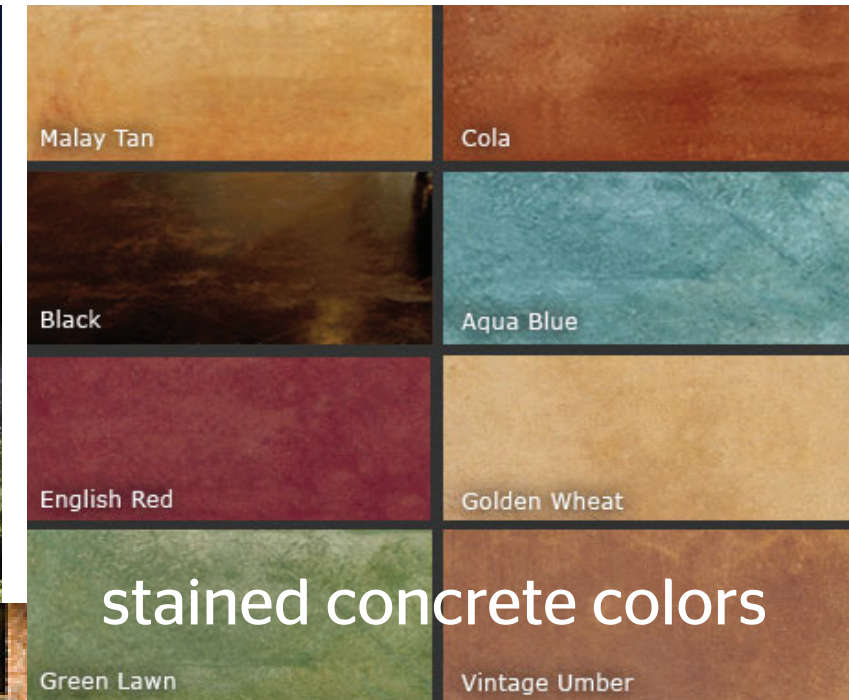

color: black

## OPTION 2

### STAINED CONCRETE WITH LIGHT

- CMT would be cut out and light would shine through letters and edges.
- Would lean against the wall and be attached to the wall by...
- Floor numbers would be stand off pieces and floor levels would be colored vinyl.

**OPTION 2 cont.**  
STAINED CONCRETE WITH LIGHT

### **OPTION 3**

#### **WOOD PANELS WITH CMT CUT OUT**

- CMT would be cut out with light shining through letters and the outer edges.
- Floor numbers would be metal material standing off of the acrylic piece.
- Floor level information would be brown vinyl.
- Metal base. Free standing from wall.

## OPTION 4

### DARK WOOD WITH CMT CUT OUT

- CMT would be cut out with light shining through letters and the outer edges.
- Floor numbers would be cut out with light shining through.
- Floor level information would be silver vinyl. Light from above floor numbers would highlight even more the silver color.
- Metal base. Free standing from wall.
- Don't have to necessarily use real wood, could use veneer.

## OPTION 11

### VERTICAL BANNER WITH LIGHT SHINING THROUGH CMT AND EDGES

- CMT could be fully cut out or just have a lighter material that would shine light through.
- Hole would be cut for camera. On the wall would be a vinyl piece same color as banner to help appear more seamless.
- Would be attached to the wall by...
- Floor information would be inbetween elevators on acrylic piece.
